Introducing MockSurvey365™: Redefining Compliance Readiness in Nursing Facilities

Orlando, FL — November 6, 2025 — The Institute of Post-Acute Care™ (InsPAC™) has launched www.mocksurvey365.com, a state-of-the-art platform that integrates human expertise with artificial intelligence to simulate the CMS and state nursing home survey process. The goal is to help nursing facilities conduct comprehensive, survey-ready reviews that strengthen compliance and improve quality outcomes.

Developed by nurse leaders and regulatory experts, **MockSurvey365™** combines the precision of AI technology with the judgment of experienced clinicians. The platform mirrors the surveyor process used by federal and state agencies-guiding users through the critical element pathways, generating deficiency statements, and supporting teams in developing plans of correction and education materials.

“Survey preparation should not be a once-a-year event,” said **Aysha Kuhlör, MSN, RN, PAC-NE**, Chief Clinical Advisor at InsPAC. “MockSurvey365™ keeps nursing facilities in a continuous state of readiness by blending technology with practical nursing insight. It helps teams learn, self-correct, and maintain past noncompliance and compliance through proactive audits, education, and real-time feedback.”

The platform includes a comprehensive library of observation tools, audit templates, and regulatory resources covering all major survey areas-from resident care and medication management to infection prevention, dietary services, and environmental safety.

As part of its launch, **InsPAC™ is offering complimentary access to PlanofCorrection365.com**, its companion platform that automates CMS-compliant plans of correction. Together, these tools create an end-to-end compliance system that supports survey readiness, post-survey compliance, and continuous quality improvement.

MockSurvey365™ is now available to nursing home administrators, directors of nursing, consultants, and corporate compliance leaders through an annual subscription.

For more information or to schedule a demonstration, visit **www.mocksurvey365.com** or contact **staff@theinspac.com**.
